The University of Melbourne was established following a proposal by Hugh Childers, the Auditor-General and Finance Minister, in his first Budget Speech on 4 November 1852, who set aside a sum of £10,000 for the establishment of a university. The university was established by Act of Incorporation on 22 January 1853, with power to confer degrees in arts, medicine, laws and music.

const is pointless when the argument is passed by value since you will not be modifying the caller's object.. Wrong. It's about self-documenting your code and your assumptions. If your code has many people working on it and your functions are non-trivial then you should mark const any and everything that you can. When writing industrial-strength code, you should always assume that your ...

S7.Net use Profinet (or Industrial Ethernet, don't remember that good) and it's derived from LibNoDave that can communicate both with Profinet and MPI. To use nModbus you need to add the Modbus libraries to the plc program. About Master and Slave, think like internet: a website is the Master and your pc that browse the site is the Slave.
